## Now, let's shine a spotlight on the individual talents that constitute this duo:

Jordana Moon is a singer-songwriter and vocal coach / voice teacher from Western Canada whose music is a harmonic homage to consciousness and empowerment. Jordana studied creative writing at the Vancouver film school. Her inspiration sprouts from a variety of genres and artists ranging from jazz, trip-hop, neo soul, to the likes of Joni Mitchell, Lauryn Hill, Bee Gees, Portishead, and Massive Attack.

On the other hand, Tom Aries, an electronic synthesizer musician from Western Germany, pours his classical piano education into spellbinding synth sequences. Having already made his mark in the sphere of computer game music and film soundtracks, Aries now directs his creativity towards the duo's offerings, attributing his inspiration to Depeche Mode, Kraftwerk, ABBA, Portishead, Röyksopp and the classic sounds of the 80s.
